

# **THE GRADUATE SCHOOL**

A PLACE FOR RESEARCH,  
A WORLD OF OPPORTUNITY

UNIVERSITY OF MIAMI  
**GRADUATE SCHOOL**

**The Graduate School at the University of Miami is focused on inspiring innovation, preparing future educators, and developing transformative leaders who will be agents of change in our global community.**

The Graduate School is among the most comprehensive in the country. The diversity of academic programs is matched only by the diversity of the University student body, both culturally and geographically.

Connecting more than 4,000 graduate students across three major campuses, the Graduate School is a student-services-driven unit that promotes excellence in graduate education and advocates for students.

The mission of the Graduate School is to promote graduate education, scholarship, and research; to support individuals, departments, and programs in the pursuit of excellence; to foster innovative, multidisciplinary, and interdisciplinary activities; and to maintain high ethical and academic standards in graduate studies.

# The Graduate Experience

Our commitment is to provide graduate students with a vibrant learning community that fosters the development of core competencies and cross-cutting skills.

## **A Culture of Belonging**

The University of Miami is one of the most diverse campuses in the country. The Graduate School is committed to inclusivity and creating an environment wherein students feel welcomed, valued, and respected. The University's Culture of Belonging initiative allows students to feel connected to the University, excel in academics, and contribute to knowledge creation and sharing.

## **A Research University**

The University of Miami is a national research university that facilitates creativity, innovation, and scientific discovery among its students. The transformational research of our faculty and students crosses geographic, cultural, and intellectual borders and spans the sciences, humanities, business, and more.

## **Event Programming**

Each semester we host a variety of events to further the academic and professional development of graduate students. Event programming includes sessions on mentoring; grants and fellowships; writing and scholarly communication; ethics; and career development and readiness.

## **Interdisciplinary Opportunities**

A main component of our educational philosophy is to bring students together from different campuses and various disciplines. Events such as the Three Minute Thesis (3MT®) Competition, Writing Retreat, and the Annual Awards Ceremony allow students to exchange ideas and share achievements with colleagues from other fields of study.

## **Graduate Funding**

Students may receive financial support, dependent upon availability and eligibility requirements. Sources of support include fellowships, scholarships, grants, loans, and tuition waivers. Some programs may also provide stipend support through teaching assistantships, research assistantships, or graduate assistantships.

## **Electronic Thesis and Dissertation (ETD) Guidance**

The completion of a thesis or dissertation is an important milestone. We educate students on the resources and requirements for the ETD submission process. Students also receive one-on-one support from the Graduate School throughout the ETD process.

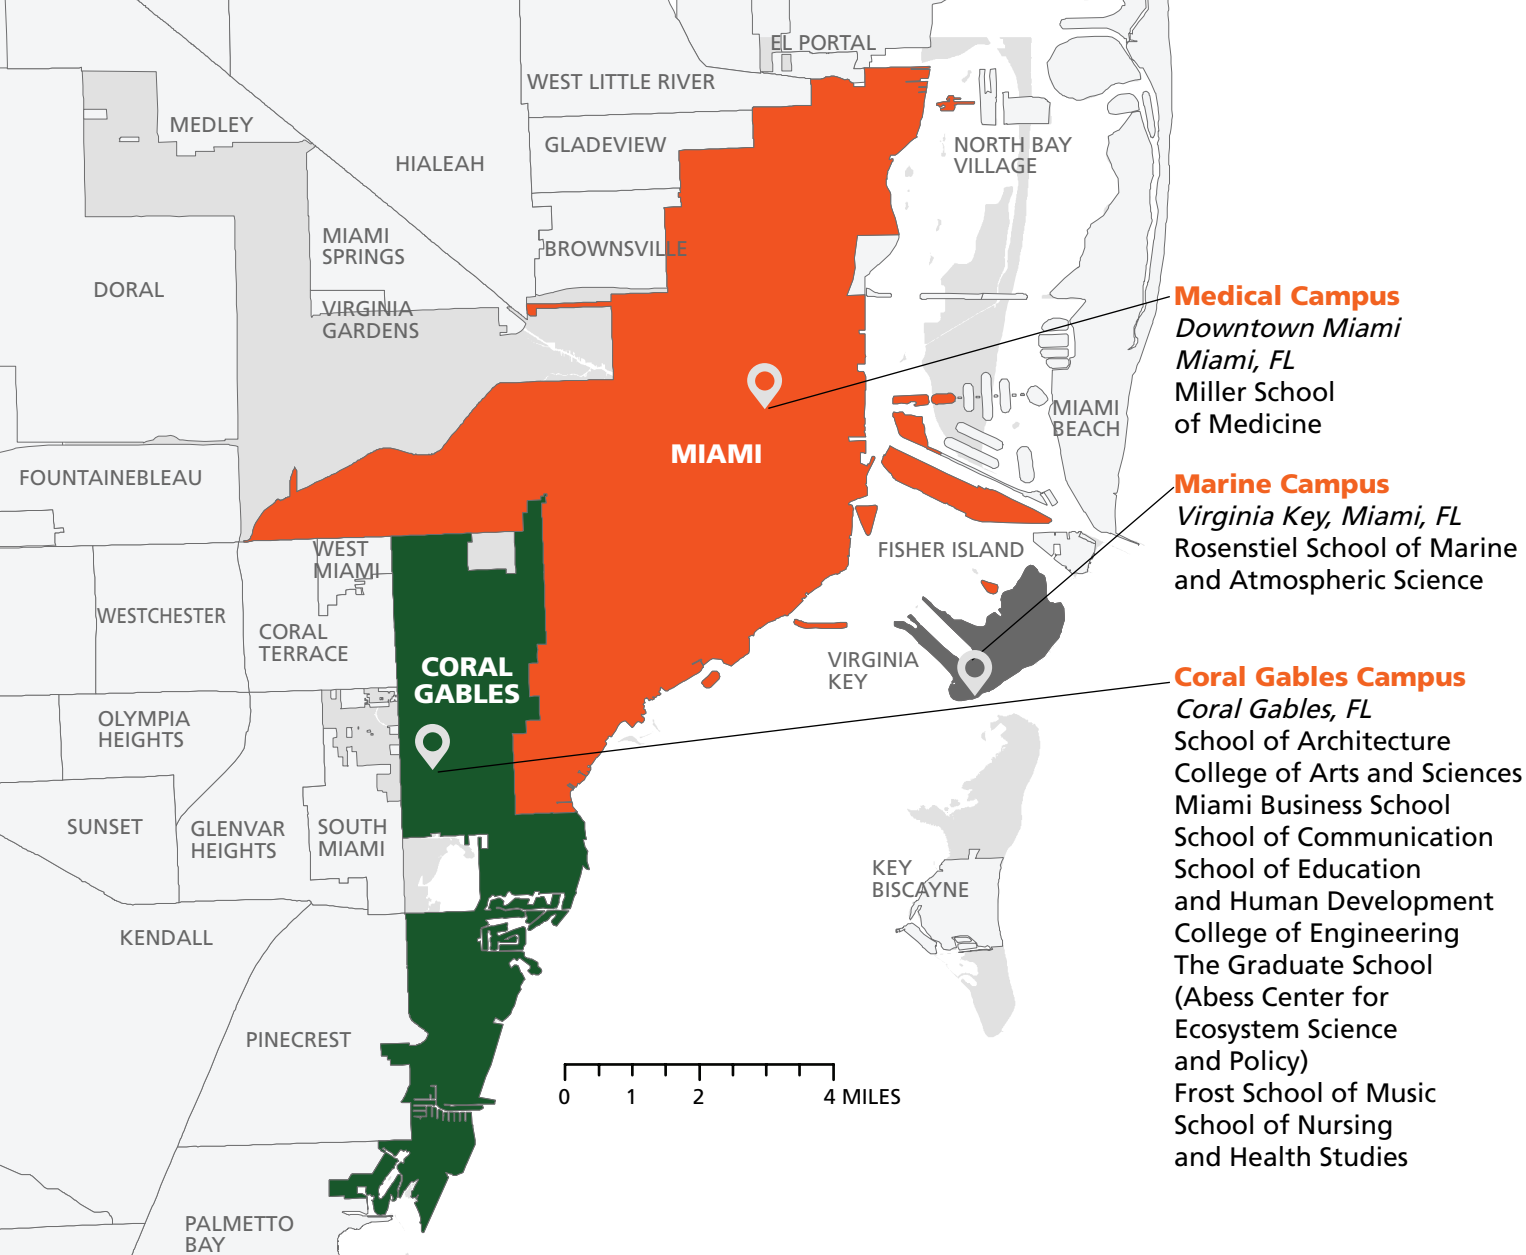

# Programs

Recognized as a top-tier research university, the University of Miami provides students a myriad of opportunities for exploration, learning, and growth. The Graduate School offers nearly 200 master's and doctoral programs across 11 schools and colleges.
